

Caid Marshal Information
<http://marshal.sca-caid.org/>

These are the published updates to the 6.0 Armored Combat handbook which have not yet been incorporated into the main handbook. They have been published in the Crown Prints and are considered to be fully functional.

06/26/2006

Greetings Caid,

In light of pending changes at the Society level and recent problems associated with the Report System I have hereby suspended it from the rules. This affects the Caid Combat Handbook version 6.0, section XV.B.3. and any references to it.

Additionally the portion of the authorization procedure regarding fighting from the knees during the authorization is changed to read, "The candidate fighter shall fight the test fighter while the test fighter is on their knees. Declaration of blows shall be the same as above. The objective of this step is to determine whether or not the candidate understands the rules of fighting against a person on their knees. There must be a majority of the "AT" for the authorization to continue. If not, then the authorization process ends as in step c."

Look for these and other changes pertaining to the new Society Handbook in the Caid Combat Handbook version 6.1

Thank you

Sir Drogo FitzWilliam
Caid Earl Marshal
